Syngenta Group achieves milestone of 125 million acres of digitally managed farmland

Basel, February 2, 2021

- Syngenta Group achieves milestone of 125 million acres of farmland actively managed by growers using the Group's digital services
- Syngenta Group is the only agricultural company to have leading digital service platforms in the top four agriculture markets: The United States, Brazil, China and Eastern Europe
- The Group's industry-leading digital services range include advanced scouting, seeds selection, imagery decision support, weather risk management, financial planning, crop and farm operations management

Greg Meyers, Syngenta Group Chief Information and Digital Officer: "We firmly believe that digital innovations in agricultural technology will lead to better, greener and more sustainable farming. As the world's most local agricultural technology and innovation partner, to now have 125 million acres of farmland managed with our digital services underscores the progress we are making with growers around the world to make that future a reality."

About Syngenta Group

Syngenta Group is one of the world's leading agricultural technology and innovation companies, with roots going back more than 250 years. Its 49,000 people across more than 100 countries strive to transform agriculture through breakthrough products and technologies that play a vital role in enabling the food chain to feed the world safely, sustainably and with respect for our planet. Swiss-based and Chinese-owned, the group draws strength from its four business units – Syngenta Crop Protection headquartered in Switzerland, Syngenta Seeds headquartered in the United States, ADAMA[®] headquartered in Israel, and Syngenta Group China – that provide industry-leading ways to serve customers everywhere.
